

WHEN CAN I CONSIDER A CLINICAL TRIAL?

NEWLY-DIAGNOSED PRIMARY BRAIN TUMOR

RECURRENT PRIMARY BRAIN TUMOR

Note:

Please note the graphic above is for general informational purposes only. Due to the extensive diversity of primary brain tumors, not all patients will have a "Standard Therapy" phase and/or a "Maintenance Therapy" phase. For some individuals, surgical biopsy or resection may not be an option due to the location, size, or extent of their individual tumor(s).
